## CEREMONIAL OR ACADEMIC MACE

Vincennes University's modernized mace includes the University colors, the VU Seal, and the seal of the State of Indiana, signifying VU's unique designation as Indiana's First College.

The mace has roots that date from ancient Rome. An early version was the fasces, a bundle of rods borne before ancient Roman legislators. In the Middle Ages, maces evolved from weapons used on the battlefield to those carried by bodyguards to protect royalty - important symbols of authority used in both academic and civil ceremonies. By the 16th century, the crude instruments of war had given way to ornate pieces, often made of silver or gold and decorated with precious stones. The traditional mace has a coat of arms on or near the top that is usually protected by a coronet or arched crown. The mace may also include a cross.

## GONFALONS (BANNERS)

The gonfalon hangs from a crosspiece or frame. It originated in medieval Italy as an ensign of state or office. Gonfalons are used to designate the various colleges of Vincennes University and precede the graduates as they enter.

Needing a friend will come to you,

Founded in 1801, Vincennes University is Indiana's first college and the only college in the nation founded by an individual who would later become President of the United States. William Henry Harrison, the nation's 9th President, founded VU while serving as Governor of the Indiana Territory.

Under Harrison's leadership, Jefferson Academy was initiated as the first institution of higher education in the Indiana Territory. The charter, issued on November 29, 1806, by the Territorial Legislature, changed the name to Vincennes University. Governor Harrison became the first Chair of the Board of Trustees.

A trailblazer in the development of the two-year college curriculum, VU's 1898 Academic Catalog

includes the term "junior college" to describe VU's educational programs, making VU a leader in this important component of higher education that spread throughout the nation.

Today VU is a state-supported college enrolling more than 18,914 students system-wide at campuses in Vincennes and Jasper, and additional sites.

VU offers baccalaureate and certificate programs in addition to associate degree programs and options.

The 245-acre Vincennes campus features 7 residence halls and some of the state's most modern

instructional and recreational facilities adjacent to sites where American history was made, such as the frontier home where Harrison lived from 1803 to 1812.

Located a few blocks from campus is the George Rogers Clark National Historical Park (site of the largest land conquest of the Revolutionary War) and the Basilica of St. Francis Xavier (built in 1826 on the site of the first Catholic parish in Indiana). These are just a few of the attractions found in Indiana's first city.

Long dedicated to broadening access to higher education, VU features the lowest tuition of any residential campus in the state. VU attracts students from throughout Indiana, across the U.S., and abroad.
