Comments

Students can make comments about what they typed in the **Submission** text box or about the file or files they attached.

- 1 Click assignment link  
In the course area, click the assignment link to access the **Upload Assignment** page.
- 2 Assignment Information  
Review the instructions and the date the assignment needs to be submitted by.
- 3 Points Possible and View Rubric  
View how much the assignment is worth and a scoring rubric, if made available by the instructor.
- 4 Assignment Files  
Download one or more files attached by the instructor.
- 5 Submission, Attach File, and Comments  
In the **Submission** text box, students can type responses and use the Text Editor functions to format the text and include files, images, external links, multimedia, and Mashups. They may also attach one or more files by clicking **Browse My Computer** or **Browse Course** and locating the file or files to attach. Optionally, they may include comments pertaining to the submission.
- 6 Save as Draft and Submit  
Students may save their responses and files, and return to edit their assignments at a later time. Students must click **Submit** to ensure completed assignments are submitted. A success message appears confirming the assignment submission.
